Smuxi - Feature # 1053: Spell checking on Windows

Status:	New	Priority:	Normal
Author:	Mirco Bauer	Category:	Frontend GNOME
Created:	05/10/2015	Assigned to:	Mirco Bauer
Updated:	05/11/2015	Due date:	
Complexity:	Medium		
Subject:	Spell checking on Windows		

Description:	Smuxi already supports spell checking on Linux by using the libgtkspell library. This library needs to be ported/build on Windows so Smuxi can also use it there. Or Smuxi needs to use a different library that Windows supports.
	
	<pre>
	05:45:23 <Codrus> Is it planned to ever have spellcheck for the windows version?
	05:54:50 <pereba> they could implement Windows 8+ native spell check, Hexchat integrated that recently in dev version.
