Description:	Heya all!		

Firstly, Smuxi is awesome. Just take it. It's awesome.

I've always seen Twitter as another form of IRC and despite Smuxi supporting Twitter for 5 years I stumbled upon Smuxi just 2 days ago and I'm loving it already.

I'm going to bombard with feature requests, that's all I can do right now but would like to contribute in whatever possible way, testing etc as I'm not a great coder.

First one is support for Twitter Lists.

Let me know if you need more information.

Thank you
