Frontend-GNOME: workaround ArgumentException in PreferencesDialog._Load() (closes: #1082)

On Mono 4.0.5 Encoding.GetEncoding(int) throws for some reason an ArgumentException which crashes Smuxi. We catch this exception to prevent that crash.

That's a bug in the Mono runtime, but I will add a workaround to Smuxi's code so it doesn't crash.

01/16/2016 01:58 PM - Mirco Bauer

The bug in Mono is tracked here: https://bugzilla.xamarin.com/show_bug.cgi?id=30709

It seems like newer Mono versions maybe don't have that bug. I am on Mono 4.2.1 and I can't reproduce the issue.

01/16/2016 02:04 PM - Mirco Bauer

- *Target version changed from 1.0.1 to 1.0.3*

01/16/2016 02:54 PM - Mirco Bauer

- *Status changed from New to Closed*

- *% Done changed from 0 to 100*

Applied in changeset commit:"0af9c48282e27e61f34330fa842860153f93429a".

01/16/2016 02:55 PM - Mirco Bauer

The issue will be gone with Smuxi 1.0.2 or 1.1 whatever happens first.

Thank you for your report!
