Subject:	can't scroll open chats		
Description:	If i open up a dozen channels, i can only see 6 of them in the menu bar thingy at the top. I can't scroll that bar to see the others. The buttons are there to scroll, they just do nothing.

The issue is the default focus mode that keeps the focus always in the "input box" (entry). When you enable the caret-mode (F7) the scrolling will work again.

Not sure how to solve this yet. Maybe set focus back to entry after a timeout?
