Subject:	disconnecting/closing protocol chats might leave disabled chats behind		
Description:	When you disconnect/close a protocol chat and that one has some disabled chats open, they will not be removed. <code>[[DisableChat]]()</code> removes the chat from the <code>[[SyncedChats]]</code> list and <code>[[FrontendManager]].RemoveChat()</code> checks if the chat is synced or not, if not, it will suppress the <code>[[RemoveChat]]</code> call, which leaves the dangling chat behind.
