Subject:	Leaking FrontendManager threads		
Description:	<p>After about 6 month of running smuxi-server there are some leaked FrontendManager threads. The lag watcher thread (IrcProtocolManager (irc.chatspike.net:6666) lag watcher) also looks suspicious.</p> <pre>&lt;pre&gt; USER      PID %CPU %MEM  VSZ  RSS TTY   STAT START  TIME COMMAND meebey  30009  0.0  6.3 448620 65500 ? Fixed thread leak when the task queue is empty and remains empty after disposing. (closes: #183)

Fixed possible frontend manager thread leak (closes: #183)

Explicitely dispose frontend managers to ensure their assigned TaskQueue will be disposed too. Also added logger calls that should aid debugging this issue for the future.

Just for the reference here is a thread dump of Smuxi 0.6.4.0 running for about one month, at that time only one frontend manager was connected, so there are clearly still some leaks hidden in 0.6.4!
