Subject:	Output area is not showing own messages		
Description:	Ubuntu users have reported that they can't see their own messages except when they click into the output area. This seems to be a bug in GTK+ 2.17.x as it doesn't happen with the same Smuxi version (0.6.3) running on GTK+ 2.16.5. That very odd behavior can be see in the attached screenshot. The the Ubuntu bug reoprt see: https://bugs.launchpad.net/ubuntu/+source/smuxi/+bug/399013 This needs to be relased before Ubuntu/Karmic does, else Smuxi will be pretty useless!

Added hack to force a redraw of the TextView widget as GTK+ 2.17.6 is not always redrawing it, leaving empty lines. (closes: #185)
