Updated:	12/27/2009	Due date:	
Subject:	Reconnect / exception if an user joins on an anonynous IRC channel		
Description:	IRCnet supports an anonymous channel mode. This mode will make all people anonymous by replacing their real nickname, ident and host with fake ones. Sadly it replaces those with the same value for ALL channel users. This leads to an exception in the IRC library, like this: <pre></pre>
