Updated:	03/18/2012	Due date:	
Complexity:			
Subject:		support mIRC colors in topic	
Description:		Support mIRC colors in topic. We need to change the IFrontendUI interface for that as it only supports a simple string currently. And not sure how to implement colors with the Gtk.Entry widget in the GNOME frontend. (requested by Cobrian)	

History

Coloring can be done with a `[[TextView]]` as topic, that way we can also support long topics using multi-lines.

03/28/2009 02:20 AM - Mirco Bauer

- Status changed from New to Closed
- % Done changed from 0 to 100

Implemented in GIT commit commit:7ec598e6eb36ea334e33e87929d0915ee7623a9b

05/25/2009 05:02 PM - Mirco Bauer

- Target version changed from 0.8 to 0.6.4
- 1 set to fixed

11/12/2011 08:35 PM - vith

- File `Untitled.png` added

Although coloring is now working in the topic textbox, the topic change messages in the channel textbox still don't parse the color codes.

version: smuxi-snapshot-20111111\_2059-win32-setup.exe

11/12/2011 11:49 PM - vith

I've created Issue #645 to address this problem in topic changes specifically.
