<b>Complexity:</b>			
<b>Subject:</b>	/rejoin does not load user-list correctly		
<b>Description:</b>	Being kicked of a channel and rejoining (with /rejoin) a few hours later does not load user-list. The channel is entered, Writing is possible and new entering people will be listed. But only a second rejoin will bring complete user-list back.		

### History

#### 02/07/2010 11:02 AM - Mirco Bauer

I think this is the same issue as see in #132, but I don't think the /rejoin command is triggering it, it's fixing it instead. But automatic rejoins say after an reconnect to the IRC server is triggering this issue.
