| Subject: | Stack trace not possible to copy in a sane way. | | |
| Description: | smuxi crashed (due to a bug somewhere else), and it was not possible to copy and paste the contents of the trace BEFORE one presses "ok". If one presses "abbrechen" (cancel) everything including the trace would be closed. Hitting ok is at least ok to get the opportunity to copy the trace, but after entering the ssh password for the remote smuxi-engine and a successful reconnection if one closes the trace THEN, everything concerning smuxi is closed... d'oh! | | |

Make sure the engine reconnect and crash dialog will only be shown once and don't interfere with each other. (closes: #325, #354)

History

02/18/2010 06:47 PM - Mirco Bauer

- Category set to Frontend GNOME
- Target version set to 0.7.2

06/14/2010 05:45 PM - Mirco Bauer

- Status changed from New to Closed
 - % Done changed from 0 to 100
- Applied in changeset commit:"3d0713f6454e8e1ae86500116635948a0b211c8e".
