Smuxi - Bug # 392: Smuxi chat wraps characters instead of words

Status:	Closed	**Priority:**	Normal
Author:	alex-launi-gmail-com -	**Category:**	Frontend GNOME
Created:	06/18/2010	**Assigned to:**	Mirco Bauer
Updated:	07/02/2010	**Due date:**	
Complexity:	Low		
Subject:	Smuxi chat wraps characters instead of words		
Description:	In the smuxi gtk chat window, words wrap by character instead of by word.

Map Gtk.WrapMode.Word to Gtk.WrapMode.WordChar when loading the Interface/Chat/WrapMode setting. (closes: #392)

I just saw that this is configurable. Why? At the very least it should default to word, but I would rethink something that fine grained needing to be configurable.

For historical reasons, in older GTK+ versions word wrap was extremely slow, resizing the window was taking seconds...
By default new Smuxi installations use word-wrap. Was your installation a new one or old?

No, it was a new installation

07/02/2010 03:29 PM - Mirco Bauer

- Target version set to 0.7.2

07/02/2010 03:38 PM - Mirco Bauer

Ok, I can reproduce this with Smuxi 0.7.1 after opening the Prefences of the first start it says Character wrap while it's actually Word wrap but if you save the config it changes it for real to character wrap, doh.
