Updated:	12/04/2015	**Due date:**	
Complexity:	Medium		
Subject:	Highlight nick in chat when selected in userlist		
Description:	When multiple chatters with look-alike nicks (length+color) converse, it can be hard to follow the conversation. If selecting a nick in userlist would highlight all rows(or only the nick?) in that chat with that chatter it may be easier to follow.
