

Smuxi - Bug # 462: Keybinds doesn't work when hiding menubar

Status:	Closed	Priority:	Normal
Author:	Jimmie E	Category:	Frontend GNOME
Created:	09/02/2010	Assigned to:	Mirco Bauer
Updated:	12/21/2011	Due date:	
Complexity:	Low		
Found in Version:	0.8		
Subject:	Keybinds doesn't work when hiding menubar		
Description:	Shortcuts, like F7, F11 and Ctrl+Page Up/Down, gets disabled when hiding the Menubar #436. They are even more important without the menu. gnome-terminal had the same issue but resolved it somehow. Possible solution/dirtyfix is to resize the menubar to height 0 instead of toggle Visible, or look at gnome-terminal's code...
