<b>Complexity:</b>			
<b>Subject:</b>	Support creating new servers with connect		
<b>Description:</b>	<p>It took me several minutes to figure out that I had to add servers before using /connect on them.</p> <p>irssi's /connect looks like this:</p> <pre>CONNECT [-4   -6] [-ssl] [-ssl_cert &lt;cert&gt;] [-ssl_pkey &lt;pkey&gt;] [-ssl_verify]         [-ssl_cafile &lt;cafile&gt;] [-ssl_capath &lt;capath&gt;] [-noproxy] [-network &lt;network&gt;]         [-host &lt;hostname&gt;] [-rawlog &lt;file&gt;] &lt;address&gt; &lt;chatnet&gt; [&lt;port&gt; [&lt;password&gt;         [&lt;nick&gt;]]]</pre> <p>It would be awesome if smuxi's supported taking a server parameter (and the rest of them) and created the server record if it doesn't already exist.</p>
