Complexity:			
Subject:	Support creating new servers with connect		

Description:	It took me several minutes to figure out that I had to add servers before using /connect on them.
	
	irssi's /connect looks like this:
	
	CONNECT [-4 | -6] [-ssl] [-ssl_cert <cert>] [-ssl_pkey <pkey>] [-ssl_verify]
	    [-ssl_cafile <cafile>] [-ssl_capath <capath>] [-noproxy] [-network <network>]
	    [-host <hostname>] [-rawlog <file>] <address>|<chatnet> [<port> [<password>
	    [<nick>]]]
	
	It would be awesome if smuxi's supported taking a server parameter (and the rest of them) and created the server record if it doesn't already exist.
