

Smuxi - Bug # 506: Smuxi suddenly hangs in desktop notification

Status:	New	Priority:	Urgent
Author:	Mirco Bauer	Category:	Frontend GNOME
Created:	09/24/2010	Assigned to:	Mirco Bauer
Updated:	12/07/2011	Due date:	
Complexity:	Medium		
Found in Version:			
Subject:	Smuxi suddenly hangs in desktop notification		
Description:	<p>Sometimes Smuxi suddenly hangs forever when showing a notification. Creating a thread dump shows that it hangs in the Dbus code waiting for a reply, see below.</p> <p>One workaround would be make the Dbus calls in a different thread, maybe using the thread-pool. Hanging calls still need to be addressed / handled somehow (thread abort?).</p> <p><pre> Full thread dump: "LastSeenHighlightQueue(#debian-release)" tid=0x0xb282db70 this=0x0x1a3578 thread handle 0x436 state : interrupted state owns () at (wrapper managed-to-native) System.Threading.WaitHandle.WaitOne_internal (intptr,int,bool) <0x00004> at (wrapper managed-to-native) System.Threading.WaitHandle.WaitOne_internal (intptr,int,bool) <0x00004> at System.Threading.WaitHandle.WaitOne () <0x0005b> at Smuxi.Common.TaskQueue.Loop () <0x0007e> at (wrapper runtime-invoke) object.runtime_invoke_void__this__ (object,intptr,intptr,intptr) <0x00040> "FrontendManagerCheckerQueue" tid=0x0xb3170b70 this=0x0x3e258 thread handle 0x41b state : interrupted state owns () at (wrapper managed-to-native) System.Threading.Thread.Sleep_internal (int) <0x00004> at (wrapper managed-to-native) System.Threading.Thread.Sleep_internal (int) <0x00004> at System.Threading.Thread.Sleep (int) <0x00016> at Smuxi.Frontend.Gnome.Frontend.<ConnectEngineToGUI>m__A () <0x00014> at Smuxi.Common.TaskQueue/<Queue>c__AnonStorey3.<>m__3 () <0x00015> at Smuxi.Common.TaskQueue/DelegateTask.Execute () <0x0001f> at Smuxi.Common.TaskQueue.Loop () <0x0008e> at (wrapper runtime-invoke) object.runtime_invoke_void__this__ (object,intptr,intptr,intptr) <0x00040> "LastSeenHighlightQueue(#monodev)" tid=0x0xb16d8b70 this=0x0x11d258 thread handle 0x469 state : interrupted state owns () at (wrapper managed-to-native) System.Threading.WaitHandle.WaitOne_internal (intptr,int,bool) <0x00004> at (wrapper managed-to-native) System.Threading.WaitHandle.WaitOne_internal (intptr,int,bool) <0x00004> at System.Threading.WaitHandle.WaitOne () <0x0005b> at Smuxi.Common.TaskQueue.Loop () <0x0007e> at (wrapper runtime-invoke) object.runtime_invoke_void__this__ (object,intptr,intptr,intptr) <0x00040> "<threadpool thread>" tid=0x0xafcf0b70 this=0x0x358640 thread handle 0x49e state : interrupted state owns () "LastSeenHighlightQueue(#twitterizer)" tid=0x0xb210ab70 this=0x0x1a3000 thread handle 0x44b state :</p>

History

10/03/2010 11:35 AM - Mirco Bauer

An alternative workaround could be to not dispose notifications, as they dispose automatically after a timeout which is controlled by the notification daemon.

The hang just happened again with xfce4-notifyd 0.1.0-5

12/07/2011 06:55 PM - Mirco Bauer

- Target version changed from 0.8.9 to 0.10

I haven't seen this issue since using dbus-sharp

12/07/2011 06:55 PM - Mirco Bauer

- Target version deleted (0.10)
