[Frontend-GNOME] Fixed desktop file for GNOME 2.32 and GNOME 3 compatibility (closes: #508)

As per GNOME goal "Correct Desktop Files" [0] the desktop file should set the application name in Name without descriptive suffix and application name with descriptive suffix in X-GNOME-FullName.

Removed the deprecated Encoding key as per Desktop Entry Specification [1]

Removed the file extension in Icon as per Icon Theme Specification [2]

Patch: <http://gist.github.com/590161>

10/17/2010 07:28 PM - Michael Montreal

In addition to the mentioned issues, there are some more things to fix for GNOME 2.32 and GNOME 3 compatibility:

Name=Smuxi -IRC Client
-GenericName=IRC Chat

New key:

X-GNOME-FullName=Smuxi IRC Client

The "X-GNOME-FullName" holds "Name" and the value of the old GenericName key, which is no longer used and should be removed.
