Complexity:			
Subject:	Filters UI should be clearer		
Description:	<p>There should be more explanation in the Filters panel about what the fields mean and what values they can take.</p> <p>Specifically:</p> <p>1. The UI doesn't indicate that the Name field corresponds to the channel name in IRC. (I thought this was just the name of my filter, so I was typing a label here, which caused my filter to not match anything.)</p> <p>2. The UI doesn't indicate that Pattern field supports regexes, nor that the regexes have to be inside slashes.</p> <p>FAQ entry# 13 helps with this, but you shouldn't have to search for a FAQ to set up a simple filter.</p>
