

## Smuxi Issues [FROZEN ARCHIVE] - Feature # 55: enhanced minimize support (tray icon)

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	Mirco Bauer	<b>Category:</b>	Frontend GNOME
<b>Created:</b>	07/20/2008	<b>Assigned to:</b>	Mirco Bauer
<b>Updated:</b>	09/02/2008	<b>Due date:</b>	
<b>Subject:</b>	enhanced minimize support (tray icon)		
<b>Description:</b>	When the window is minimize it should become a tray icon instead and highlights will make the tray icon blinking.		

### History

#### 07/20/2008 03:31 PM - Arvydas -

This whole user interface should be implemeted as follows:

- \* When user hits the Close button, smuxi should close to tray;
- \* Double clicking (or single clicking depending on user settings) the icon should open up the window;
- \* Right clicking the icon should show context menu: Open/Hide Smuxi, About, Close Application;
- \* There should be an option that would allow to display the tray icon all the time;

I would suggest the minimize function to work as normal: minimize the application and leaving the window open.
