

Smuxi - Feature # 572: Target parameter for /mode

Status:	Closed	Priority:	High
Author:	Joel Roth	Category:	Engine IRC
Created:	03/02/2011	Assigned to:	Mirco Bauer
Updated:	05/26/2013	Due date:	
Complexity:	Low		
Subject:	Target parameter for /mode		
Description:	<p>Sometimes we want to use /mode in a window that we aren't necessarily interacting with in-window.</p> <p>I suggest:</p> <p>If the first parameter if /mode starts with a #, apply it to the channel specified.</p> <p>If the first parameter starts with anything that isn't + or -, apply it to a user. On any IRCd I've used it can be used to view, not set but InspIRCd at least gives you a message such as:</p> <p>Can't change mode for other users</p> <p>So some might be able to use it on other users instead of /samode.</p> <p>Currently, the behaviour is to apply everything to either yourself, or the channel you're in. If we're setting a mode, we're going to be using + or - anyway.</p>
