Smuxi - Bug # 654: Channels are not well-ordered on server join

Status:	Closed	**Priority:**	Immediate
Author:	Christopher Halse Rogers	**Category:**	Frontend GNOME
Created:	12/04/2011	**Assigned to:**	Mirco Bauer
Updated:	01/15/2013	**Due date:**	
Complexity:	Medium		
Found in Version:	git		
Subject:	Channels are not well-ordered on server join		
Description:	When starting the server connection process - either on initial smuxi-engine connection, or when connecting to a new server - the channels are not displayed in the order specified in the IRC server's preferences window. Worse, when starting up the smuxi-engine, the channel tabs and server tabs are not associated at all - the channels from multiple servers are interleaved and the server tabs bear no obvious relation to the channels. This does not appear to be deterministic.
