| Subject: | After being minimized Smuxi doesn't remember that it was fullscreen | | |
| Description: | <ol style="list-style-type: none">1. Have Smuxi in fullscreen.2. Minimize it (now only to be found on the taskbar).3. Click the icon on taskbar to view Smuxi again.4. The window is now in a small window - and not fullscreen. <p>I would want it to remember that it was fullscreen after being minimized. I'm using Windows 7 x64</p> | | |
