

Smuxi - Feature # 706: Make a system for exposing non-essential (internal) configuration choices

Status:	New	Priority:	Normal
Author:	Kalle Kaitala	Category:	Frontend GNOME
Created:	04/06/2012	Assigned to:	Mirco Bauer
Updated:	03/30/2014	Due date:	
Complexity:	Medium		
Subject:	Make a system for exposing non-essential (internal) configuration choices		
Description:	Some options are not important enough to warrant a place in graphical dialogs, but would still benefit from being settable and not static, code-based choices. Find a way to expose these to advanced users, eg. about:config system in Firefox.		

History

04/06/2012 02:04 PM - Mirco Bauer

- Category changed from Common to Frontend GNOME
- Complexity set to Medium

04/11/2013 06:59 PM - Mirco Bauer

- Subject changed from Make a system for exposing non-essential configuration choices to Make a system for exposing non-essential (internal) configuration choices

03/30/2014 09:43 AM - Mirco Bauer

The command is already exposed by:

```
<pre>
/config set Some/Key=Value
/config save
</pre>
```

But it should have an UI IMHO...
