

Smuxi - Bug # 730: easy join sometimes opens second network tab

Status:	Closed	Priority:	Normal
Author:	Bianca Mix	Category:	Frontend GNOME
Created:	06/30/2012	Assigned to:	Mirco Bauer
Updated:	07/04/2012	Due date:	
Complexity:	Low		
Found in Version:	0.8.10		
Subject:	easy join sometimes opens second network tab		
Description:	<p>Situation:</p> <p>manual network configuration named the network: CCC the actual network name after connect (visible in the status bar): tippgicht</p> <p>Smuxi is sometimes is unable to match these names when using the easy join feature (maybe race condition?) The fallback method to host + port seems not to work due to -1 as a parameter.</p> <p>(workaround is renaming the network name in the serer configuration to the actual network name)</p> <pre>18:24:26 <meebey> // check first by network name with fallback to host+port 18:24:26 <meebey> if (!String.IsNullOrEmpty(network) && 18:24:26 <meebey> String.Compare(network, linkNetwork, true) == 0) 18:24:27 <meebey> (String.Compare(host, linkHost, true) == 0 && 18:24:27 <meebey> port == linkPort)) { 18:24:28 <meebey> das ist die logik btw 18:24:33 <meebey> in Frontend.OpenChatLink 18:24:56 <meebey> sofern es ein netzwerk gibt vergleicht er das, wenn nicht dann host + port 18:25:18 <heavy> *nicknick* 18:25:32 <meebey> glaube ich weiss auch wieso der fallback nicht geht 18:25:42 <meebey> oben kennt er das protokoll nicht 18:25:45 <meebey> übergibt also keines 18:25:55 <meebey> damit wird port immer falsch sein 18:26:17 <meebey> ah hats schon 18:26:30 <meebey> port -1 (aus dem link) vs port 6667 von der verbindung 18:26:45 <meebey> er darf nur port vergleichen wenn einer angegeben wurde 18:26:54 <meebey> ansonsten muss jeder port passen</pre>
