[Frontend-GNOME] Implemented MessagingMenu# support as needed for Ubuntu 12.10 (closes: #764)

Ubuntu 12.10 replaced libindicate (indicate-sharp) with libmessaging-menu

(messagingmenu-sharp). Support for libindicate was left to still support older

Ubuntu version and other Linux distributions (like Debian) that don't ship

libmessaging-menu yet.

*- Subject changed from Ubuntu drops libindicate to Ubuntu 12.10 drops libindicate*

**10/01/2012 11:08 PM - Mirco Bauer**

This could be the rescue:

<pre>

Did I ever mention that you can now bindinate gir enabled libraries and get .NET bindings. thanks to @sh4na https://github.com/andreiagaita/bindinator

</pre>
