Smuxi Issues [FROZEN ARCHIVE] - Bug # 859: "/MODE username -x" doesn't work

Status:	Rejected	**Priority:**	Low
Author:	Daniel Lo Nigro	**Category:**	Engine IRC
Created:	07/05/2013	**Assigned to:**	Mirco Bauer
Updated:	07/09/2013	**Due date:**	

Complexity:	
Found in Version:	0.8.11-1~raring+1
Subject:	"/MODE username -x" doesn't work

Description:	When I do this:
	<pre>
	/mode Daniel -x
	</pre>
	
	I get this:
	<pre>
	[501 (ErrorUserModeUnknownFlag)] Unknown MODE flag
	</pre>
	
	However, this works fine on the same server using a different IRC client.

History

07/09/2013 01:29 PM - Mirco Bauer

- Status changed from New to Rejected

Changing the usermode with /mode $nick +x or /mode +x works but not all IRC networks support +x.

Freenode, which does _not_ support +x
<pre>
13:25:46   WRITE: MODE meebey_ -x
13:25:46 [501 (ErrorUserModeUnknownFlag)] Unknown MODE flag
13:25:46   READ: :leguin.freenode.net 501 meebey_ :Unknown MODE flag
</pre>

QuakeNet, which does support +x
<pre>
13:26:46   WRITE: MODE meebey +x
13:26:47 -!- Mode change [+x] for user meebey
13:26:47   READ: :meebey!~smuxi@62.80.20.142 MODE meebey +x
</pre>

Thus there is nothing to fix...

07/09/2013 01:31 PM - Mirco Bauer

If you want to see what happens at protocol level in the server tab, run Smuxi from a terminal like this: smuxi-frontend-gnome -d

07/09/2013 02:12 PM - Daniel Lo Nigro

Thanks, I tried it again and it seems to be working so I must have been doing something wrong! PEBKAC error :)

I was connected to a few networks so maybe I was just running the commands in the wrong tab...
