Updated:	08/07/2013	Due date:	
Subject:	Problem with Bouncer		
Description:	Hi,		
	im using since today the znc bouncer to connect to IRC, but with Smuxi it doesn't works.		
	If i connect to localhost, znc says "You need to send your password. Try /quote PASS		
	<username>:<password>"</password></username>		
	But if i type "/quote PASS myusername:mypassword" and press enter, nothing happens, i think Smuxi don't		
	send the message.		
	No, my bouncer isn't broken, with other clients it works normally.

- Category changed from Other to Engine IRC

Why don't you specify the password in the server settings when you connect? It should login then. I know that other Smuxi users are using ZNC successfully.
