| Subject: | Chatroom tabs order jumbled | | |
| Description: | Whenever I lose my connection and smuxi reconnects, all the tabs jump out of order as smuxi rejoins each channel. This is particularly annoying when you connect to multiple servers, and it stops being obvious which channel is from which server (on first launch, each server's channels tabs are adjacent to each other, but this stops being true after a reconnect and is quite disorienting). | | |
