Subject:	gio-sharp FileNotFoundException happens when being highlighted in a "make run" build		
Description:	When using "make run" (as opposed to using a package from the daily PPA), if someone highlights my nickname , I get this exception:		

Exception Type:
System.IO.FileNotFoundException

Exception Message:
Could not load file or assembly 'gio-sharp, Version=2.14.0.0, Culture=neutral, PublicKeyToken=35e10195dab3c99f' or one of its dependencies.

Exception StackTrace:

11/23/2013 06:39 PM - Andrés G. Aragoneses

So I'm wondering if we can change the LocalCopy setting of the gio-sharp reference to be true, and this will be fixed? Not sure if xbuild supports this well, but MonoDevelop just got support for it: https://github.com/mono/monodevelop/commit/d22ccbef1db007ade0f20b16350970ddad9337ce

11/24/2013 08:21 PM - Andrés G. Aragoneses

Oh, turns out XBUILD is only used for lib/ projects :-(So this requires an autotools fix.

11/28/2013 09:46 AM - Mirco Bauer

- Target version set to 26

12/06/2013 12:27 AM - Mirco Bauer

- Target version deleted (26)

This is annoying but doesn't affect installed Smuxi and thus lowering the priority (not a 0.9.1/0.10 release show stopper)
