

## Smuxi - Bug # 946: Reconnect issue with server and channel passwords

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	Josh Berkus	<b>Category:</b>	Engine IRC
<b>Created:</b>	01/24/2014	<b>Assigned to:</b>	Mirco Bauer
<b>Updated:</b>	02/13/2014	<b>Due date:</b>	
<b>Complexity:</b>			
<b>Found in Version:</b>	0.10		
<b>Subject:</b>	Reconnect issue with server and channel passwords		
<b>Description:</b>	<p>Setup:</p> <p>IRC server with:</p> <ul style="list-style-type: none"><li>(a) password for server</li><li>(b) SSL</li><li>(c) channel passwords for each channel</li></ul> <p>All-in-one desktop Smuxi client on Gnome/Ubuntu laptop with channel JOINS as "on-connect" commands. Server is auto-connect on start.</p> <ol style="list-style-type: none"><li>1. Start Smuxi and connect to server.</li><li>2. Put laptop in suspend, or disconnect it from the network.</li><li>3. Wake laptop back up or reconnect the network.</li><li>4. Smuxi will not auto-reconnect to the server.</li><li>5. On a manual reconnect to the server, Smuxi will not rejoin the channels; the channels will be displayed, but you will not be connected to them.</li><li>6. If you try to join the channels with a manual /join command, you will get an error from Smuxi that you are already in that channel.</li><li>7. The only way to get back in the channels is to disconnect from the server entirely (losing all history) and reconnect.</li></ol>		

### History

**01/24/2014 08:35 PM - Mirco Bauer**

This sounds like the bug in #921 which was already fixed. Please try a daily build of Smuxi and see if the issue goes away.

**01/24/2014 08:36 PM - Mirco Bauer**

- Category set to Engine IRC

- Assigned to set to Mirco Bauer

**01/25/2014 08:26 AM - Mirco Bauer**

- Status changed from New to Feedback

**02/12/2014 10:54 PM - Josh Berkus**

This is confirmed fixed in the current 0.11 daily.

**02/13/2014 05:46 AM - Mirco Bauer**

- Status changed from Feedback to Closed

Great. Thanks for the feedback.
