Smuxi Issues [FROZEN ARCHIVE] - Bug # 954: Notifications should be server-specific

Status:	Rejected	**Priority:**	Normal
Author:	Josh Berkus	**Category:**	
Created:	02/14/2014	**Assigned to:**	
Updated:	02/20/2014	**Due date:**	
Complexity:			
Found in Version:	0.11beta		
Subject:	Notifications should be server-specific		
Description:	The way it is now: 1. I am logged into irc.mycompany.com as "josh" 2. I am logged into chat.freenode.net as "agliodbs" 3. If anyone says "josh" on chat.freenode.net#postgresql, I get a notification 4. If another user named "josh" on chat.freenode.net#postgresql speaks, I get a notification. The way it should be: I should only get notifications for the nick I am using on a particular server. Also, I should never get notifications for a string that's in in another user's nickname.

Please disregard this issue. Turns out I had inadvertenly engaged the "Highlight Words" feature.
