| Subject: | ui hangup when ssh tunnel is killed | | |
| Description: | after a suspend, the ssh tunnel is usually dead, smuxi doesn't take well to that | | |

History

05/11/2014 01:21 PM - Mirco Bauer

Can you reproduce this issue? Because I do suspend/resume my laptop every day and never ran into this (and I am using smuxi-server with SSH).

05/11/2014 01:22 PM - Mirco Bauer

Smuxi usually noticed the dead tunnel after 60 seconds or so and automatically reconnects with a fresh tunnel.
