<b>Subject:</b>	ui hangup when ssh tunnel is killed		
<b>Description:</b>	after a suspend, the ssh tunnel is usually dead, smuxi doesn't take well to that		

### History

---

Can you reproduce this issue? Because I do suspend/resume my laptop every day and never ran into this (and I am using smuxi-server with SSH).

**05/11/2014 01:22 PM - Mirco Bauer**

Smuxi usually noticed the dead tunnel after 60 seconds or so and automatically reconnects with a fresh tunnel.
